ACKNOWLEDGEMENT

The Master of Social Work (MSW) programme is designed to train the candidates catering to the demands for professionally trained social workers to work as social development professionals. The syllabus and curriculum was modified in 2012 to restructure the programme as per the Mahatma Gandhi University Regulations of Credit Semester System (MGU – CSS – PG).

The present revision emphasizes the importance of core competence in social work profession with due importance to field based learning and reflection which is a unique feature and an integral part of social work education and training. The programme objectives and learning outcomes are visualized for providing the learners a holistic perspective in social work practice along with a deeper insight into particular specialized functional areas. The field based experience can develop the ability of the learners to integrate knowledge, values and skills required and appropriate for professional practice in social work. Research based practices and continuous connect of the learners to the realities of the social world through varied sensitizing programmes, are some of the salient features of social work education and training. All the basic tenets of social work profession as well as emerging challenges in professional social work practices are discussed in the revised curriculum in a systematic manner which shall train the learner for a professional practice in social work.

This work is the result of the combined efforts of the members of the PG Expert Committee (Social Work), and the heads of departments and faculty members of the affiliated colleges under MG University offering MSW programme, who worked as a team to revise the syllabus and curriculum in the stipulated period. Active consultations are held by the members of this team with various stakeholders in the field of social work to elicit multiple perspectives in social work education which are incorporated in the new curriculum. We express our sincere gratitude to Hon'ble Vice-Chancellor Dr. Sabu Thomas and Pro Vice-Chancellor for their whole hearted support and continued guidance. We also like to thank the Registrar, Controller of Examinations, and Finance Officer of the University for their timely support towards this venture. We are grateful to Dr Praveen, Syndicate Member in charge of the curriculum revision and all the distinguished members of the syndicate and administrative officers who have been providing the necessary guidelines for the finalization of the new syllabus and curriculum.

We would like to place on record our sincere thanks to the social work experts; the social work faculty members from the colleges under Mahatma Gandhi University for their active involvement in revising and restructuring the MSW curriculum. We sincerely express our wholehearted gratitude to one and all who have contributed their resources to make this venture a success.

M.S.W. Degree Program

(Mahatma Gandhi University Regulations PGCSS2019 from 2019-20 Academic Year)

INTRODUCTION

The Master of Social Science in Social Work (MSW) Programme is a professional training programme that leads to the professional qualification of a Social Worker. The course work of the Programme aims to provide students with a solid conceptual framework and a theoretical foundation of social work practice. To develop social work knowledge and skills, and to help students cultivate a positive identification with social work values and the ethics of the social work profession are the aims of this Programme. In addition to the academic content, students are required to undertake supervised practice in different social service agencies/communities. This programme equips students with advanced training in knowledge and skills to reflect and resolve conflicts within themselves and to help disadvantaged groups. Through these academic and training engagements, students are prepared for a career in professional social work.

The curriculum of the Master of Social Work (MSW) Programme is designed to meet the requirements as per the programme's objectives, which is to prepare the students to build a career in Social Work Profession and Development sector. The professional education in social work equip the students to confidently engage in the practices of counselling, group work, and community work, research, policy formulation and analysis, advocacy and social & political interventions. There are a number of promising career opportunities open for these graduates in the areas like: Rural and Urban Community Development, Hospital Social Work, Psychiatric

Social Work, Industrial Counselling, Family Counselling, Child Welfare, Administration of NGOs, Corporate Social Responsibility, Human Rights, Environment and Disaster Management, Project Preparation & Evaluation and Field level Research Projects.

The MSW programme is organized into four semesters with elective (specialization) courses offered as three specialization groups in:

- Community Development (CD)
- Family and Child Welfare (FCW)
- Medical and Psychiatric Social Work (MPSW)

There are TEN courses in the first and second semesters along with field practicum. In the third semester there are two core as well as 3 elective courses each in each specialization group along with field practicum. In the fourth semester there are two core courses and two elective courses, field practicum apart from project/dissertation. Field Practicum (field education) is an integral part of the training in social work education with the objective of helping the students to develop the skills, attitudes and values and personality characteristics essential for a professional social worker. The students are to be placed in local self government institutions, welfare agencies, development organizations, community based organizations of children, youth, women and elderly, hospitals etc. for field work training. The training equips the students to get hands on training in different areas as well as according to their specialization.

1. Aim of the Program

- i. To facilitate the learners to develop the foundations of social work practice by providing the theoretical input on the philosophy, values, methods, fields and approaches of human service profession and human resource management.
- ii. To sensitize the learners about the contemporary socio-economic and cultural realities through field based learning and proficiency in helping skills and effective intervention strategies.
- iii. To develop a professional approach in addressing human societal needs and become effective and efficient change agents in the social milieu.
- iv. To develop an insight into

one's professional self and purposive use of the same in professional practice through integral transformative practices.

- v. To sharpen the learners' skills in conceptualization, scientific assessment, analysis & interpretation and planning & intervention.

The major learning outcomes of the graduating students are the competence to demonstrate the professional knowledge of interdisciplinary foundations and theories, methods and practice models and skills in the practice with individuals, families, and groups, or leadership in the

practice, the ability in analyzing, evaluating public policies and programmes and drafting of model policies leading to research integrated practices.

Total Hours: 54

Course Outcomes

- Develop an understanding about the scientific approach to human inquiry
- Understand Social research as a method of social work and to develop the appropriate skills to effectively implement the research methods and techniques in the field.
- Demonstrate skills in literature search
- Able to design research proposals
- Understand the relevance and able to carry out appropriate statistical analysis in social work research.

- Independently evaluate different methodological approaches within qualitative research

Course Outline

Module 1 Introduction to Social Work Research

UNIT 1: Definition and objectives of social research and social work research. Scope and Nature of scientific enquiry

UNIT 2 : Basic elements of scientific method: concepts, conceptual and operational definitions, assumptions, hypothesis, theory, law.

UNIT 3: Variables and levels of measurement, Qualitative and quantitative methods. Types of quantitative researches.

UNIT 4: Design of research: Importance and types, explorative, descriptive, explanatory (diagnostic) and experimental methods (Pre, True and Quasi designs), Evaluative research- types, steps, Participatory research, action research, mixed research methods.

Ethical considerations in research

Module 2 Research Process

UNIT 5: Research proposal: meaning and major steps of a research proposal.

UNIT 6: Identification and formulation of research problem. Need and importance of theoretical frame work in research, Review of Literature. Formulation of objectives, hypothesis.

UNIT 7: Population and sampling. Sampling definition, sampling theory, purpose and types-probability and non-probability sampling. Sources and types of data: primary and secondary, quantitative and qualitative data.

UNIT 8: Methods & Tools of data collection – observation, questionnaire, interview schedule, interview guide, Steps and guidelines in the construction of research instruments Reliability, Internal and external validity

Module 3 Quantitative Analysis

UNIT 9: Nature and purpose of statistics – use of statistical methods and limitations of statistics.

UNIT 10: Tabulation of data – purpose and basis of classification, Frequency distribution-construction of frequency tables, graphic presentation of data- Bar chart, pie chart, histogram, frequency curve and ogive

UNIT 11: Selection of appropriate statistical methods –based on levels of measurement, number of variables, nature of research

Module 4 Statistical Procedures

UNIT 12: Interpretation and presentation of the statistical findings

UNIT 13: Descriptive statistics- Measures of central tendency: Mean, median, mode.

Measures of variability - range, Standard Deviation, uses-co-efficient of variation

UNIT 14: Inferential statistics - Correlation: Pearson’s Coefficient of correlation, Spearman’s Rank correlation.

UNIT 15: Significance tests: Parametric and Nonparametric tests
Pearson’s chi square, ‘t’ test, analysis of variance-one-way - Relevance, application and interpretation.

UNIT 16: Use of software packages in data analysis – SPSS. Process and various statistical procedures using SPSS.

Module 5 Qualitative Research methods for Social work

UNIT 17: Advantages and disadvantages of Qualitative research Methods.
Possible biases and measures to ensure objectivity, Mixed methods

UNIT 18: Preparation of Qualitative research proposal- Important components, Precautions to ensure reliability and validity.

UNIT 19: Tools of data collection in Qualitative research method-
Systematic observation, Focus group discussion, in-depth interview, Case studies, Projective techniques. .

UNIT 20: Critical review of research report

Module 6 Qualitative Data Analysis and Research Report

UNIT 21: Qualitative data analysis and interpretation of the findings, triangulation.

UNIT 22: Major components of a research report, Formats for presenting the report. APA Style in research reporting, bibliography and referencing.
